

Jade Bennett — Management Accountant at The White Horse Federation

Career Progression

Jade joined The White Horse Federation in June 2013 as a finance assistant. At the time of applying for the role, Jade was studying AAT level 4. Having taken the position of finance assistant, she completed AAT while in the job and was immediately given the opportunity to demonstrate her skills as she took on a variety of tasks as the federation grew.

When the role of assistant management accountant was advertised, Jade had the experience and confidence to successfully apply for the position. Since taking the assistant role, Jade has progressed to becoming a management accountant, just six years after joining the federation,

Federation Support

Jade has experienced the full support of The White Horse Federation throughout her time in the finance department, especially when it comes to her studies. She has been facilitated in taking CIMA through the apprenticeship route, which allowed her to both afford the qualification and also take study time to prepare for exams. Being able to access the apprenticeship route has also helped with her professional development, as her role in the finance department has provided Jade with practical experience to support core knowledge in exams.

What They Say

“I don’t think I’ll ever be able to compare the experience I’ve had over the last few years to another workplace. As the federation is always changing and evolving, there are so many different opportunities.”
